Notes:

1. Up to twelve outputs total in blocks of four, RF, Digital, or Modulated Time Code or a combination.
2. One auto switch channel available, RF, Digital, or Modulated Time Code.
3. Up to thirty six outputs total in blocks of four, RF, Digital, or Modulated Time Code or a combination.
4. Up to eight auto switch channels available in any combination of RF, Digital, or Modulated Time Code.
5. Up to twenty four channels total in blocks of four, RF or Digital.
6. Up to three auto switch channels total, RF, Digital, or Modulated Time
